Such conduct the New Orleans and Memphia Cotton Exmust inevitably prove most prejudicial to the existence of cordial relations between the natives and foreigners, and highly calculated to discourage foreign commercial enterpris in China. Blind must be the officials who thus deliberately turn their backs upon the path of Progress, when the future well-being of the country so evidently hangs upon their following it. The failure of the attempt to erect this telegraph line is one more proof of the dogged and senseless resistance the Chinese are prepared to oppose to any scheme for the development of the resources

of their country by foreigners.

THE CHIONICLE AND DIRECTORY such exceptional treatment, but for the fact that the Chinese Government has pever hitherto officially recognised emigration or attempted to extend protection to those who have been impelled to leave the country in search of a livelihood. In the past, the Chinoso Government has been guilty of a great neglect of its obligations in this respect. Wrapped up in selfish exclusivoness and unparalleled concelt, it has systematically ignored everything transpiring outside the bounds of the Central Kingdom. It is wak ing up to a sense of its duties in some degree now, urged thereto by the force of events and

the influence of foreign Powers. It has, in concluding the new Treaty with Peru, formally taken cognisance of and sanctioned emigration, thereby pledging itself to watch over the welfare of its subjects. It will do well now to turn its attention to Siam. To allow its people to submit to such a practice as that required by the Siamese Government is to tacitly acquiesce in an implied inferiority.
